IMPORTANT INFORMATION
WICHTIGE INFORMATIONEN
INFORMATION IMPORTANT
INFORMACIÓN IMPORTANTE
INFORMAZIONI IMPORTANTI

Perrin & Rowe kitchen products have a minimum recommended installation pressure
of 0.2 bar and a maximum recommended installation pressure of 5 bar, with the following exceptions.

Rinse option/Single flow spouts

Minimum recommended installation pressure = 1 bar (single flow spouts).

Minimum recommended installation pressure = 1.5 bar (taps with rinse).

Maximum recommended installation pressure = 5 bar.

Rinse hose standard length = 1200mm.

Rinse hose not to be connected directly to cold mains; separate from main mixer.

All rinse options have single flow spouts.

All measurements shown in this document are in millimetres (mm).

Due to TCL Manufacturing Ltd continuing policy of product development, we reserve the right to modify or alter designs at our discretion.

TCL Manufacturing Ltd Terms and Conditions are available upon request.

Perrin & Rowe is manufactured by TCL Manufacturing Ltd.

Perrin & Rowe Küchenprodukte haben einen minimal empfohlenen Installationsdruck von 0,2 Bar und der maximal empfohlene Installationsdruck beträgt 5 Bar mit den folgenden Ausnahmen.

Spüloption/Einstrom Auslauf

Minimal empfohlener Installationsdruck = 1 Bar (Einstrom Ausläufe).

Minimal empfohlener Installationsdruck = 1,5 Bar (Armaturen mit Spülfunktion)

Maximal empfohlener Installationsdruck = 5 Bar.

Standardlänge des Spülschlauchs = 1200 mm.

Der Spülschlauch darf nicht direkt an die Kaltwasserleitung, separat vom Hauptmischer angeschlossen werden.

Alle Spüloptionen haben Einstrom Ausläufe.

Alle in diesem Dokument angegebenen Abmessungen werden in Millimetern (mm) angezeigt.

Aufgrund der ständigen Politik der Produktentwicklung von TCL Manufacturing Ltd behalten wir uns das Recht vor, Designänderungen nach unserem Ermessen vorzunehmen.

Die Geschäftsbedingungen von TCL Manufacturing Ltd sind auf Anfrage verfügbar.

Perrin & Rowe wird von TCL Manufacturing Ltd. hergestellt

Les accessoires pour cuisine Perrin & Rowe comportent une pression minimale d'installation recommandée de 0,2 Bar, et une pression d'installation maximale recommandée de 5 bars, avec les exceptions suivantes :

Option douchette extractible/Becs à flux unique

Pression minimale d'installation recommandée = 1 Bar (becs à flux unique).

Pression minimale d'installation recommandée = 1,5 bar (robinets avec douchette extractible).

Pression maximale d'installation recommandée = 5 bars.

Longueur de tuyau standard de douchette extractible = 1200 mm.

Ne pas connecter directement la douchette extractible au réseau d'eau froide; séparer du mélangeur principal.

Toutes les options de douchette extractible comportent des becs à flux unique.

Toutes les dimensions montrées dans ce document sont en millimètres (mm).

En raison de la politique de développement continu des produits de TCL Manufacturing Ltd, nous nous réservons le droit de changer ou modifier nos produits à notre discrétion.

Les Conditions générales de TCL Manufacturing Ltd sont disponibles sur demande.

Perrin & Rowe est fabriqué par TCL Manufacturing Ltd.

Los productos de cocina de Perrin & Rowe tienen una presión de instalación mínima recomendada de 0,2 bares y una presión de instalación máxima recomendada de 5 bares, con las siguientes excepciones:

Opción de ducha extraíble/Caños de flujo único

Presión de instalación mínima recomendada = 1 bar (caños de flujo único).

Presión de instalación mínima recomendada = 1,5 bares (grifos con ducha extraíble).

Presión de instalación máxima recomendada = 5 bares.

Longitud estándar de la manguera de la ducha extraíble = 1,200 mm

La manguera de la ducha extraíble no debe conectarse directamente al suministro de agua fría. Debe separarse del mezclador principal.

Todas las opciones de ducha extraíble tienen caños de flujo único.

Todas las medidas mostradas en este documento son en milímetros (mm).

Debido a la continua política de desarrollo de productos de TCL Manufacturing Ltd, nos reservamos el derecho de modificar o alterar los diseños a nuestra discreción.

Podemos proporcionarle los términos y condiciones de TCL Manufacturing Ltd bajo solicitud

Los productos de Perrin & Rowe son fabricados por TCL Manufacturing Ltd.

I prodotti da cucina di Perrin & Rowe hanno una pressione minima consigliata per l'installazione di 0,2bar e una pressione massima consigliata per l'installazione di 5bar, con le eccezioni che seguono.

Opzione doccetta estraibile/Rubinetti a getto singolo

Pressione minima consigliata per l'installazione = 1bar (rubinetti a getto singolo).

Pressione minima consigliata per l'installazione = 1,5bar (rubinetti con doccetta estraibile).

Pressione massima consigliata per l'installazione = 5bar.

Lunghezza standard del tubo della doccetta estraibile = 1200mm.

Il tubo della doccetta estraibile non deve essere collegato direttamente alle condutture dell'acqua Fredda; NON separarlo dalle tubature del miscelatore.

Tutte le opzioni con doccetta estraibile hanno rubinetti a getto singolo.

Tutte le misure indicate nel presente documento sono espresse in millimetri (mm).

A causa della politica di sviluppo continuo del prodotto applicata da TCL Manufacturing Ltd, ci riserviamo il diritto di apportare modifiche ai prodotti a nostra discrezione.

Termini e condizioni di TCL Manufacturing Ltd sono disponibili su richiesta.

LEVER HANDLES

The Traditional Collection of Perrin & Rowe kitchen mixers offer a variety of combinations of colours and finishes.

Through the innovative use of materials such as Brass, Porcelain, Corian and Avonite, Perrin & Rowe has made it possible to design a tap to suit your own individual requirements.

Prices shown relate to spares or replacement handles only. It is recommended that these handles are purchased in pairs to ensure a perfect colour match.

Important Note: The colours shown are not exact representations.

HEBELGRIFFE

Die traditionelle Kollektion der Perrin & Rowe Küchenmischer bietet eine Vielzahl von Farbkombinationen und Verarbeitungen an.

Durch die innovative Verwendung von Materialien, wie Messing, Porzellan, Corian und Avonit, hat es Perrin & Rowe ermöglicht, Armaturen zu konstruieren, die Ihren eigenen individuellen Anforderungen entsprechen.

Die angezeigten Preise beziehen sich nur auf Ersatzteile oder Austauschgriffe. Es wird empfohlen, dass diese Griffe paarweise bestellt werden, um eine perfekte Farbübereinstimmung zu gewährleisten.

Wichtiger Hinweis: Die angezeigten Farben sind keine genauen Darstellungen.

POIGNÉES À LEVIER

La collection traditionnelle de mélangeurs de cuisine Perrin & Rowe offre toute une palette de couleurs et de finitions.

Grâce à l'utilisation innovante du laiton, de la porcelaine, du Corian et de l'Avonite, Perrin & Rowe vous a permis de créer un robinet correspondant à vos spécifications précises.

Les prix indiqués concernent uniquement les pièces détachées et les poignées de remplacement. Il est recommandé de les commander par paires pour s'assurer que leurs couleurs correspondent.

Remarque importante : Les couleurs montrées ne constituent pas des représentations exactes et ne sont pas contractuelles.

MANDOS

La colección tradicional de mezcladores de cocina de Perrin & Rowe le ofrece una gran variedad de colores y acabados.

Mediante el uso innovador de materiales como el bronce, la porcelana, el Corian y la Avonita, Perrin & Rowe hace que sea posible diseñar una grifería que encaje perfectamente con sus necesidades individuales.

Los precios mostrados son solamente para mandos de recambio. Se recomienda comprar los mandos en pares para garantizar que los colores encajen a la perfección.

Nota importante: los colores mostrados no son representaciones exactas.

MANIGLIE A LEVA

La Collezione Classica di miscelatori da cucina Perrin & Rowe offre un'ampia gamma di combinazioni di colori e finiture.

Con l'uso innovativo di materiali come ottone, porcellana, Corian e Avonite, Perrin & Rowe ha reso possibile progettare un rubinetto adatto a ogni singola esigenza.

I prezzi indicati si riferiscono esclusivamente a maniglie di ricambio. Si consiglia di acquistare queste maniglie in coppia, per essere sicuri che in colori corrispondano perfettamente.

Importante: i colori mostrati in foto non sono una rappresentazione esatta della realtà

LIVING FINISHES
"LEBENDE" OBERFLÄCHEN
FINITIONS VIVANTES
ACABADO VIVO
FINITURE OTTONE VIVO

The three brass finishes are described as 'living finishes' which means they develop a unique patina as they react with their environment.
Die drei Messingverarbeitungen werden als „Lebende Oberflächen" beschrieben, dieses bedeutet, dass sie eine einzigartige Patina entwickeln, wenn sie mit ihrer Umgebung reagieren.
Les trois finitions de laiton sont nommées « finitions vivantes » parce qu'elles développent une patine en réagissant à leur environnement.
Los tres acabados de latón se describen como "acabados vivos" ya que desarrollan una pátina a medida que reaccionan con el entorno.
Queste tre finiture in ottone crudo sono definite "finiture vive" perché sviluppano una patina unica una volta a contatto con l'ambiente circostante.

POLISHED BRASS (BR)
A warm finish with coppery undertones.

POLIERTES MESSING (BR)
Ein warmes Finish mit kupferenen Untertönen.

LAITON POLI (BR)
Une finition chaude aux tons cuivrés.

LATÓN PULIDO (BR)
Un acabado cálido con tonos de cobre.

OTTONE LUCIDO (BR)
Una finitura calda con sfumature color rame.

SATIN BRASS (SB)
A matte finish with strong undertones of yellow ochre.

SEIDENMATT MESSING (SB)
Ein mattes Finish mit starken Untertönen von gelbem Ocker.

LAITON SATINÉ (SB)
Une finition mate, avec de fortes nuances d'ocre jaune

LATÓN SATINADO (SB)
Un acabado mate con tonos intensos de amarillo ocre.

OTTONE SATINATO (SB)
Una finitura satinata con decise sfumature giallo ocra.

AGED BRASS (AB)
A darker finish with a tarnished, aged look.

ALTMESSING(AB)
Ein dunkleres Finish mit einem mattierten, gealtertem Aussehen.

LAITON PATINÉ (AB)
Une finition plus sombre, avec un aspect terni et vieilli.

LATÓN ENVEJECIDO (AB)
Un acabado más oscuro con un aspecto deslucido y envejecido.

OTTONE INVECCHIATO (AB)
Una finitura più scura, dall'aspetto ossidato e invecchiato.

A DISTINCTIVE MEMBER OF THE HOUSE OF ROHL

HOUSE OF ROHL

THE STORY CRAFT TELLS

Perrin & Rowe is a member of the House of Rohl, a collection of artisan brands recognised for their artistry and heritage.

The Rohl family have spent a lifetime seeking stories of dedication, passion and craft. They have brought together diverse brands, exceptional in their category, that complement each other. Independent spirits, but shared values. A belief that quality starts with the material, design is in the detail and craftsmanship is paramount.

Distinctive stories are what makes life exceptional. At the House of Rohl, we discover time-honoured craft, revealing stories unlike any other. Stories of place and provenance. Stories of ingenuity and invention. Stories of a relentless pursuit of perfection.

Welcome to the House of Rohl®

DAS HANDWERK ERZÄHLT DIE GESCHICHTE

Perrin & Rowe ist Teil von House of Rohl, einer Kollektion handwerklicher Marken, anerkannt für ihr Design und ihre Geschichte.

Die Familie Rohl suchte ein Leben lang nach Geschichten, geprägt von Engagement, Leidenschaft und Handwerklichkeit. Es enstand eine Kollektion verschiedener Marken, alle außergewöhnlich in ihrem Wesen, die sich ergänzen. Unabhängige Seelen, aber gemeinsame Werte. Der Glaube, dass Qualität mit dem Material beginnt, Design im Detail liegt und die Handwerkskunst an erster Stelle steht.

Besondere Geschichten machen das Leben außergewöhnlich. Im House of Rohl entdecken wir alterwürdige Handwerke und enthüllen verborgene Geschichten. Geschichten der Orte und der Herkunft. Geschichten von Einfallsreichtum und Inspiration. Geschichten nach einem unermüdllichen Streben nach Perfektion.

Willkommen im House of Rohl®

L'HISTOIRE QUE RACONTE L'ARTISANAT

Perrin & Rowe est membre de House of Rohl, une collection de marques artisanales reconnues pour leur art et leur héritage.

La famille Rohl a passé sa vie à chercher des histoires de dévouement, de passion et d'artisanat. Ils ont rassemblé diverses marques, exceptionnelles dans leur catégorie, qui se complètent les unes des autres, des esprits indépendants, mais des valeurs communes, la conviction que la qualité commence avec le matériau, que le design est dans le détail et que l'artisanat est primordial.

Les belles histoires sont celles qui rendent la vie exceptionnelle. Chez House of Rohl, nous découvrons un artisanat traditionnel, révélant des histoires uniques: Histoires de lieux et de provenance, des histoires d'ingéniosité et d'invention, des histoires sur la recherche incessante de la perfection.

Bienvenue chez House of Rohl®

LA HISTORIA QUE CUENTA LA ARTESANÍA

Perrin & Rowe es miembro de House of Rohl, una colección de marcas artesanales reconocidas por su arte y su herencia.

La familia Rohl lleva toda una vida buscando historias de dedicación, pasión y artesanía. Han reunido diversas marcas, excepcionales en su categoría, que se complementan entre sí. Espíritus independientes, pero valores compartidos. La creencia de que la calidad comienza con el material, el diseño está en el detalle y la artesanía es primordial.

Las historias distintivas son las que hacen que la vida sea excepcional. En House of Rohl, descubrimos la artesanía consagrada, revelando historias diferentes a cualquier otra. Historias de lugar y procedencia. Historias de ingenio e invención. Historias de una búsqueda incesante de la perfección.

Bienvenido a House of Rohl®

LA STORIA DELL'ARTIGIANATO CI RACCONTA

Perrin & Rowe e membro di House of Rohl, una collezione di marchi dell'artigianato riconosciuti per la loro qualità e tradizione.

La famiglia Rohl ha dedicato un'intera vita alla ricerca di storie di dedizione, passione e artigianato. Loro hanno raccolto insieme diversi marchi, eccezionali nella loro categoria, che si complimentano fra di loro. Spiriti indipendenti, ma valori condivisi. La convinzione che la qualità incominci dal materiale, il design e nei dettagli e l'artigianato fondamentale.

Le storie distintive sono ciò che rende la vita eccezionale. Alla House of Rohl, scopriamo storie di radici e tradizioni. Storie di creativita e innovazione. Storie di una continuà ricerca della perfezione.

RIOBEL

CONTEMPORARY BRASSWARE | ZEITGENÖSSISCHE ARMATUREN ROBIENTTERIE CONTEMPORAINE GRIFERÍAS CONTEMPORÁNEA | ARTICOLI DI OTTONE DAL GUSTO CONTEMPORANEO

Quebec is where European culture meets North American spirit. In this vibrant city, Riobel design distinctive and innovative brassware, inspired by the sculptural forms of contemporary architecture. Beneath the surface, industry-leading engineering delivers performance and reliability. Riobel offers luxury designed to be lived with.

In Quebec treffen europäische Kultur und nordamerikanische Ambition aufeinander. Hier entwirft Riobel unverwechselbare und innovative Armaturen, inspiriert von den Formgebungen zeitgenössischer Architektur. Fortgeschrittene Ingenieurskunst kreiert branchenführende Leistung und Zuverlässigkeit. Riobel bietet Luxusdesign für das moderne Leben.

C'est au Québec que la culture européenne répond aux aspirations nord-américaines. Là-bas, Riobel conçoit des robinetteries uniques et innovantes, inspirées des formes sculpturales de l'architecture contemporaine. L'ingénierie avancée offre des performances et une fiabilité de pointe. Riobel offre un design de luxe pour un habitat moderne.

Es en Quebec donde la cultura europea se encuentra con las aspiraciones norteamericanas. Allí, Riobel diseña griferías únicas e innovadoras que se inspiran en las formas esculturales de la arquitectura contemporánea. La ingeniería avanzada ofrece un rendimiento y una fiabilidad de vanguardia. Riobel ofrece un diseño de lujo para una vida moderna.

Il Quebec rappresenta il luogo dove cultura europea e ispirazioni del Nord America si incontrano. Proprio qui Riobel progetta articoli in ottone innovativi e dal design unico, ispirati alle forme scultoree dell'architettura contemporanea. L'ingegneria più avanzata garantisce prestazioni e affidabilità leader nel settore. Riobel offre un design di lusso ideale per la vita moderna.

SHAWS

FIRECLAY SINKS | SCHAMOTTSTEIN-SPÜLEN | ÉVIERS EN ARGILE RÉFRACTAIRE FREGADEROS DE CERÁMICA REFRACTARIA | LAVELLI IN ARGILLA REFRATTARIA

When Arthur Shaw identified the waste material extracted from the colliery at Darwen as fireclay, he established Shaws of Darwen to make use of it. More than 120 years later, at the same factory in the north of England, Shaws' Heavy Duty Fireclay is fired hotter and longer to produce kitchen and bathroom sinks with an incredibly durable finish.

Als Arthur Shaw herausfand, dass der Abraum aus der Kohlengrube in Darwen Schamottstein war, gründete er Shaws of Darwen, um diesen Rohstoff zu nutzen. Über 120 Jahre später wird in derselben Fabrik im Norden Englands Shaws' hochbelastbarer Schamottstein besonders heiß und lange erhitzt, um Küchenspülen und Waschbecken mit einer unglaublich widerstandsfähigen Oberfläche zu fertigen.

Lorsque Arthur Shaw identifia les déchets extraits de la mine de Darwen comme de l'argile réfractaire, il créa Shaws of Darwen pour s'en servir. Plus de 120 ans après, dans la même usine du nord de l'Angleterre, l'argile réfractaire de haute résistance de Shaws est cuite à une température plus élevée et plus longtemps afin de produire des éviers et des lavabos dotés d'une finition incroyablement durable.

Cuando Arthur Shaw comprobó que el material de desecho extraído de la mina de carbón de Darwen era arcilla refractaria, creó Shaws of Darwen para aprovecharla. Más de 120 años después, en la misma fábrica del norte de Inglaterra, la arcilla refractaria de alta resistencia de Shaws se cuece a mayor temperatura y durante más tiempo para producir fregaderos de cocina y lavabos de baño con un acabado increíblemente duradero.

Quando Arthur Shaw scoprì che il materiale di scarto estratto dalla miniera di Darwen era argilla refrattaria, decise di utilizzarla come materiale di lavorazione nella sua nuova azienda Shaws of Darwen. Più di 120 anni dopo, nella stessa fabbrica del nord dell'Inghilterra, l'argilla refrattaria ad alta resistenza viene lavorata con cotture più lunghe e a temperature più elevate per produrre lavelli da cucina e lavabi da bagno con finiture incredibilmente resistenti.

VICTORIA + ALBERT

BATHS AND BASINS | BADEWANNEN UND WASCHBECKEN | BAIGNOIRES ET LAVABOS BAÑERAS Y LAVABOS | VASCHE DA BAGNO E LAVABI

To make beautiful baths and basins of the highest quality, Victoria + Albert developed their own unique material. Made from natural Volcanic Limestone™, QUARRYCAST™ is light, warm to the touch and incredibly strong. This gives Victoria + Albert's designers the freedom to create award-winning designs that can last a lifetime.

Um wunderschöne Badewannen und Waschbecken von höchster Qualität herstellen zu können, hat man bei Victoria + Albert ein eigenes, einzigartiges Material entwickelt. Das aus natürlichem Volcanic Limestone™ hergestellte QUARRYCAST™ ist leicht, berührungswarm und unübertroffen stabil. Das gibt den Designern von Victoria + Albert freie Hand, preisgekrönte Designs zu schaffen, an der Sie ein Leben lang Freude haben können.

Pour produire de magnifiques baignoires et lavabos de la plus haute qualité, Victoria + Albert a développé son propre et exclusif matériau. Fabriqués en Volcanic Limestone™ naturel, le QUARRYCAST™ est léger, chaud au toucher et incroyablement résistant. C'est ce que confère aux designers de Victoria + Albert la liberté de créer des designs primés qui peuvent durer toute une vie.

Para producir atractivas bañeras y lavabos de la más alta calidad, Victoria + Albert ha desarrollado su propio y exclusivo material. Hecho de Volcanic Limestone™ natural, QUARRYCAST™ es ligero, cálido al tacto e increíblemente resistente. Esto da a los diseñadores de Victoria + Albert la libertad de crear diseños premiados que pueden durar toda la vida.

Victoria + Albert ha sviluppato un materiale unico con cui creare vasche da bagno e lavabi di altissima qualità. Realizzata in pietra naturale Volcanic Limestone™, la linea QUARRYCAST™ è leggera, calda al tatto e incredibilmente resistente. Questo offre ai designer di Victoria + Albert la libertà di creare prodotti di qualità elevata dalla durata eterna.

THE PERRIN & ROWE STORY

Forty years ago in East London, Bob Perrin and Greg Rowe began an extraordinary partnership. Despite limited funds and a workshop that was little more than a garden shed, they began by machining brass components that others found too difficult to make. As designers they made their name by producing the world's first 3 in 1 tap – a tap that dispensed hot, cold and filtered water – using their own Triflow technology. This blend of innovation and traditional manufacturing craft defines the Perrin & Rowe brand today.

Our comprehensive range of kitchen and bathroom brassware is manufactured in our own factories in Britain. We still make taps in small batches, pouring molten brass by hand into moulds of our own design. Our sanitaryware is made in Staffordshire, the heart of English ceramic manufacture for three hundred years. By controlling every element of design and production, Perrin & Rowe has become known by architects and design professionals for its quality and durability.

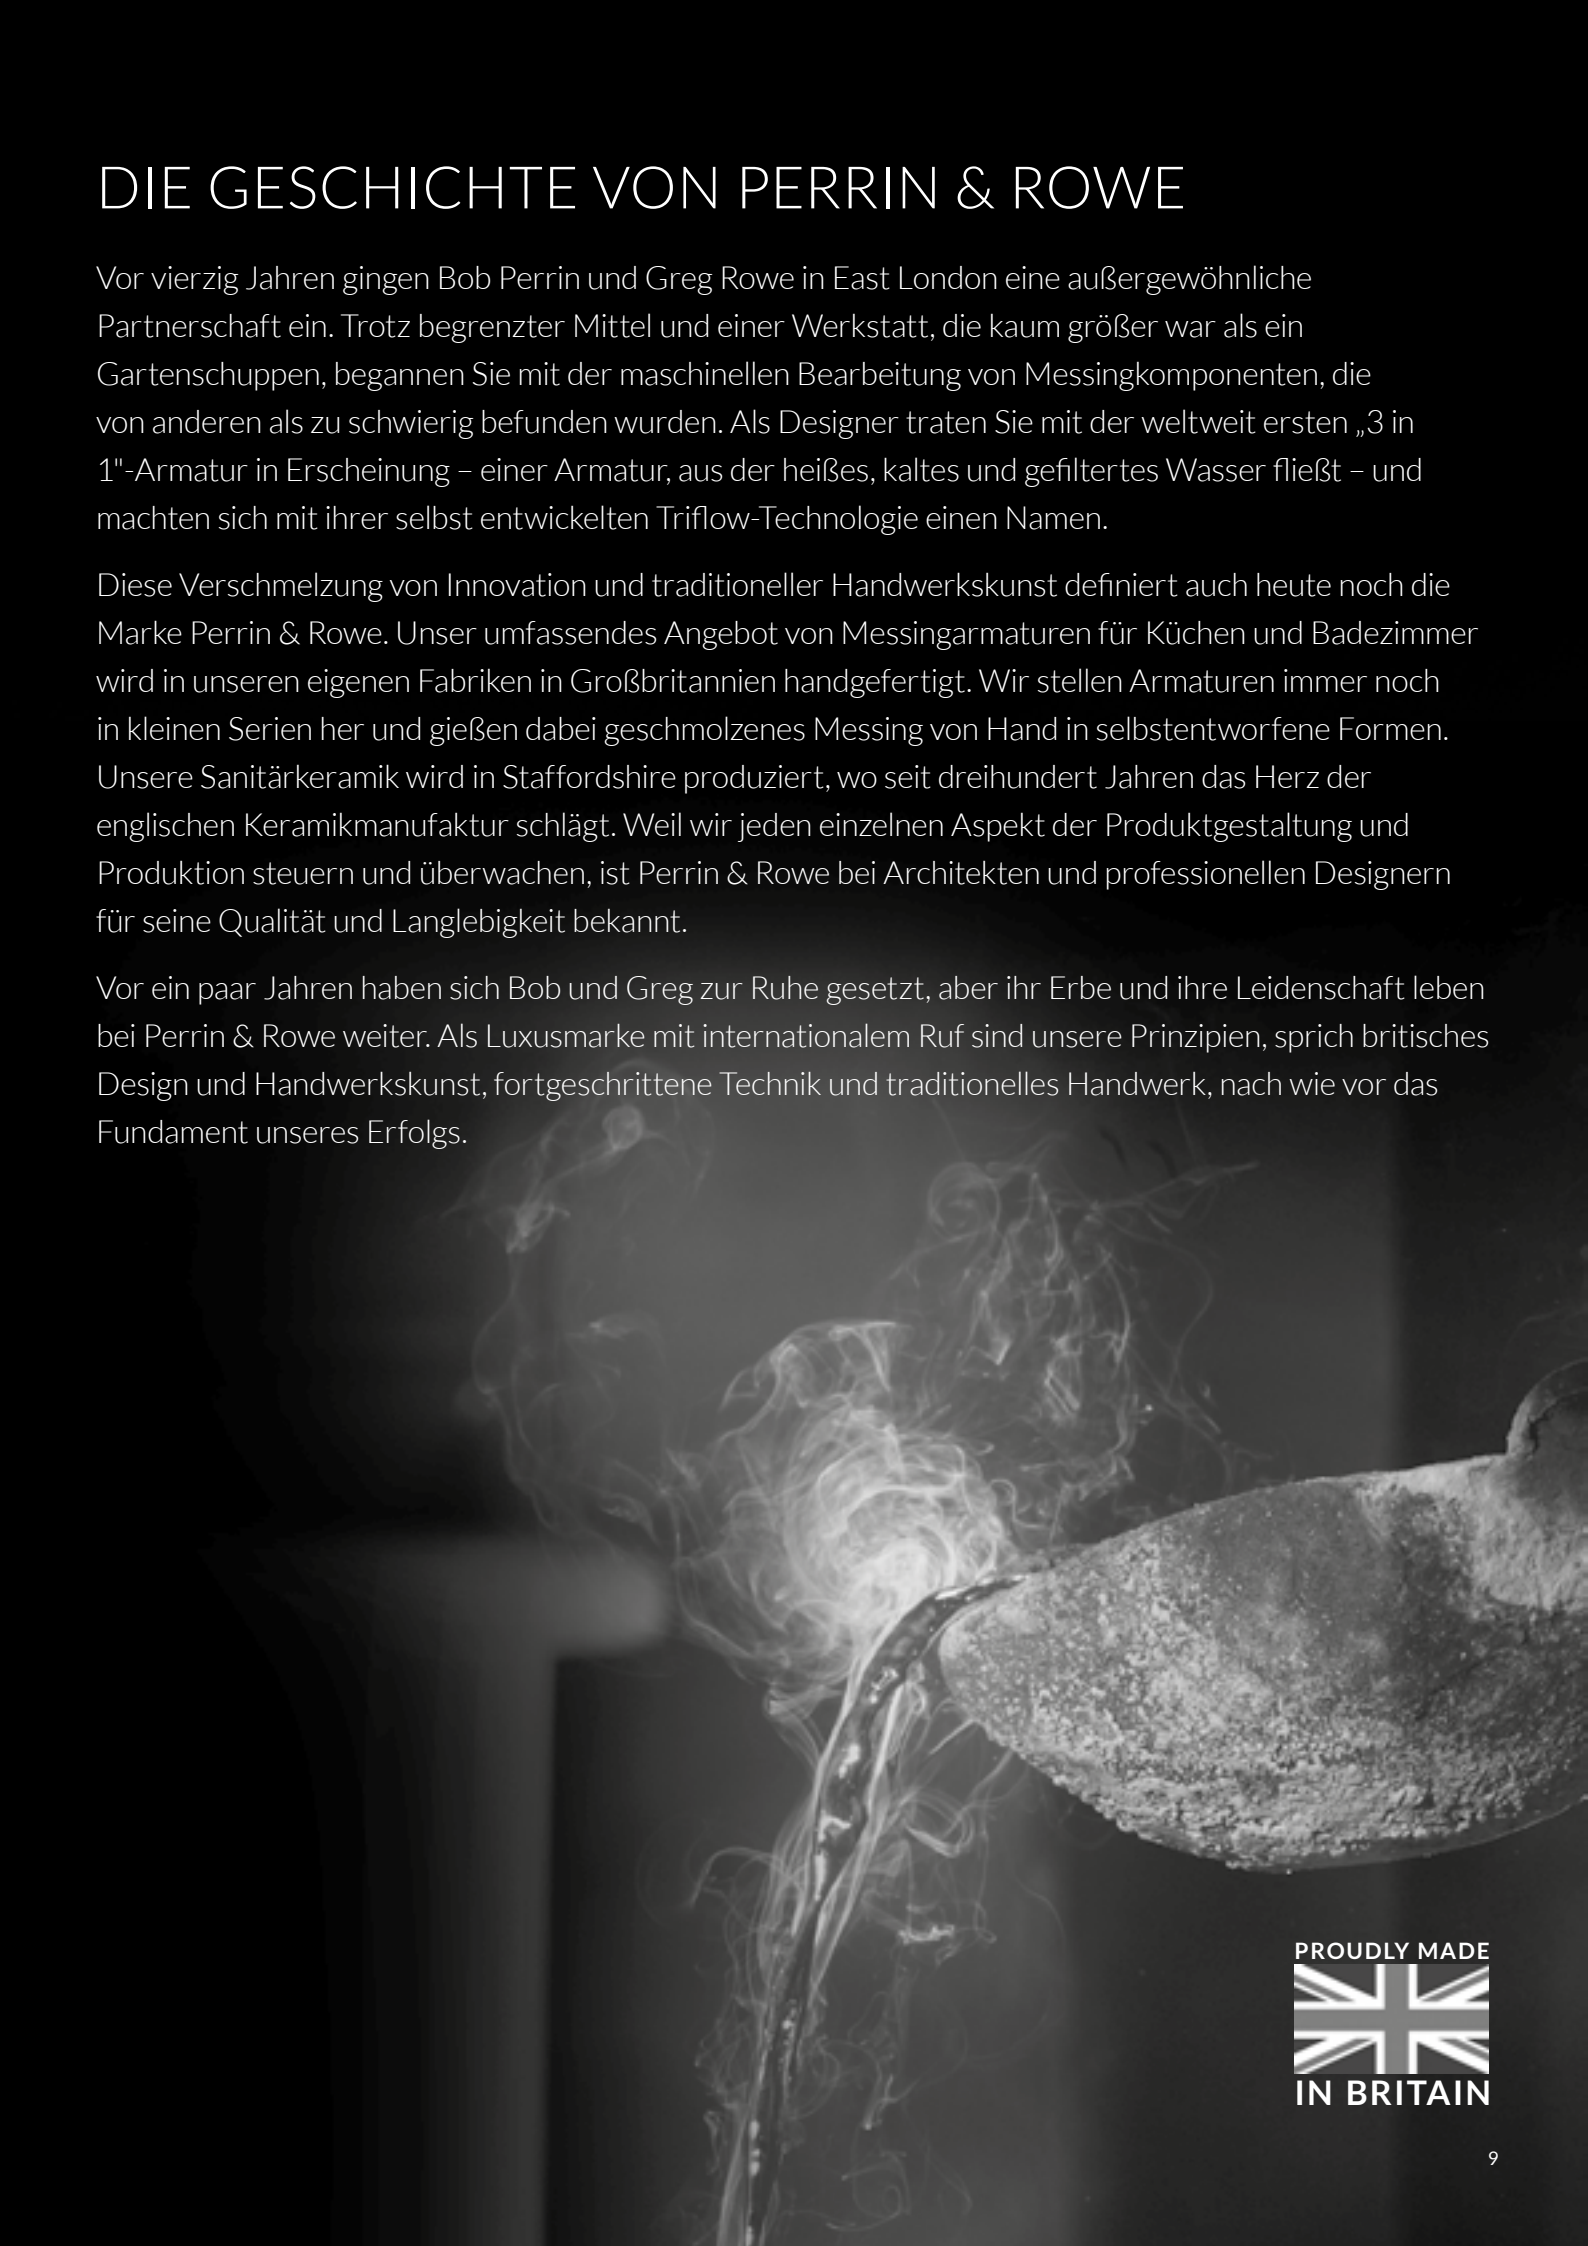
Bob and Greg retired some years ago, but their legacy and passion live on at Perrin & Rowe. Now a luxury brand with an international reputation, our principles of British design and craftsmanship, advanced engineering and traditional manufacturing, remain the foundation of our success.

DIE GESCHICHTE VON PERRIN & ROWE

Vor vierzig Jahren gingen Bob Perrin und Greg Rowe in East London eine außergewöhnliche Partnerschaft ein. Trotz begrenzter Mittel und einer Werkstatt, die kaum größer war als ein Gartenschuppen, begannen Sie mit der maschinellen Bearbeitung von Messingkomponenten, die von anderen als zu schwierig befunden wurden. Als Designer traten Sie mit der weltweit ersten „3 in 1"-Armatur in Erscheinung – einer Armatur, aus der heißes, kaltes und gefiltertes Wasser fließt – und machten sich mit ihrer selbst entwickelten Triflow-Technologie einen Namen.

Diese Verschmelzung von Innovation und traditioneller Handwerkskunst definiert auch heute noch die Marke Perrin & Rowe. Unser umfassendes Angebot von Messingarmaturen für Küchen und Badezimmer wird in unseren eigenen Fabriken in Großbritannien handgefertigt. Wir stellen Armaturen immer noch in kleinen Serien her und gießen dabei geschmolzenes Messing von Hand in selbstentworfene Formen. Unsere Sanitärkeramik wird in Staffordshire produziert, wo seit dreihundert Jahren das Herz der englischen Keramikmanufaktur schlägt. Weil wir jeden einzelnen Aspekt der Produktgestaltung und Produktion steuern und überwachen, ist Perrin & Rowe bei Architekten und professionellen Designern für seine Qualität und Langlebigkeit bekannt.

Vor ein paar Jahren haben sich Bob und Greg zur Ruhe gesetzt, aber ihr Erbe und ihre Leidenschaft leben bei Perrin & Rowe weiter. Als Luxusmarke mit internationalem Ruf sind unsere Prinzipien, sprich britisches Design und Handwerkskunst, fortgeschrittene Technik und traditionelles Handwerk, nach wie vor das Fundament unseres Erfolgs.



L’HISTOIRE DE PERRIN & ROWE

Il y a quarante ans, dans l’est de Londres, Bob Perrin et Greg Rowe ont initié un partenariat extraordinaire. Malgré des fonds limités et un atelier qui n’était guère plus qu’un abri de jardin, ils ont commencé par fabriquer des composants en laiton que d’autres trouvaient trop difficiles à fabriquer. En tant que concepteurs, ils se sont fait un nom en produisant le premier robinet 3 en 1 au monde – un robinet qui distribuait de l’eau chaude, froide et filtrée – en utilisant leur propre technologie Triflow.

Ce mélange d’innovation et de fabrication artisanale traditionnelle définit aujourd’hui la marque Perrin & Rowe. Notre gamme complète de robinetteries de cuisine et de salle de bains est fabriquée dans nos propres usines en Grande-Bretagne. Nous fabriquons encore des robinets en petits lots, en versant du laiton fondu à la main dans des moules de notre propre conception. Notre matériel sanitaire est fabriqué dans le Staffordshire, qui représente le cœur de la fabrication de céramique anglaise depuis trois cents ans. En contrôlant chaque élément du design et de la production, Perrin & Rowe s’est forgé une réputation auprès des architectes et des professionnels du design pour sa qualité et sa durabilité.

Bob et Greg ont pris leur retraite il y a quelques années, mais leur héritage et leur passion se perpétuent chez Perrin & Rowe. Désormais une marque de luxe dotée d'une réputation internationale, nos principes en matière de conception et d’artisanat britannique, d’ingénierie avancée et de fabrication traditionnelle, demeurent les fondements de notre succès.

LA HISTORIA DE PERRIN & ROWE

Hace cuarenta años, en el este de Londres, Bob Perrin y Greg Rowe iniciaron una colaboración extraordinaria. A pesar de la escasez de fondos y de que su taller era poco más grande que una caseta de jardín, empezaron a hacer a máquina componentes de latón que a otros les resultaba muy complicado fabricar. Como diseñadores, empezaron a hacerse un nombre fabricando el primer grifo 3 en 1, es decir, que dispensaba agua caliente, fría y filtrada, con su propia tecnología Triflow.

Esta combinación de fabricación innovadora y tradicional define la marca Perrin & Rowe en la actualidad. Nuestra gama integral de griferías de cocina y baño se fabrica en nuestras propias fábricas de Gran Bretaña. Seguimos fabricando los grifos en pequeños lotes, vertiendo el latón fundido a mano en moldes de diseño propio. Nuestros artículos para el baño se fabrican en Staffordshire, el corazón de la producción de la cerámica inglesa desde hace trescientos años. Controlando cada elemento del diseño y la producción, Perrin & Rowe se ha ganado una reputación entre arquitectos y profesionales del diseño por su calidad y durabilidad.

Bob y Greg se jubilaron hace algunos años, pero su legado y pasión siguen vivos en Perrin & Rowe. Es ahora una marca de lujo con reputación internacional, pero sus principios de diseño y artesanía británicos, ingeniería avanzada y fabricación tradicional, siguen siendo la base de su éxito.

LA STORIA DI PERRIN & ROWE

Quarant'anni fa, nella zona est di Londra, Bob Perrin e Greg Rowe hanno dato vita a una partnership straordinaria. Nonostante i fondi limitati e un laboratorio poco più grande di un ricovero degli attrezzi, hanno avviato la lavorazione di componenti in ottone che gli altri trovavano troppo difficili da produrre. Si sono affermati come designer realizzando il primo rubinetto 3-in-1 al mondo, un rubinetto che erogava acqua calda, acqua fredda e acqua filtrata, servendosi della loro tecnologia brevettata Triflow.

Ed è proprio questo connubio fra innovazione e abilità manifatturiera tradizionale a definire oggi il brand Perrin & Rowe. La nostra ampia gamma di rubinetteria per la cucina ed il bagno viene prodotta presso le nostre fabbriche in Gran Bretagna. Continuiamo a produrre i nostri rubinetti in piccoli lotti, versando a mano l'ottone fuso negli stampi da noi progettati. I nostri articoli sanitari vengono realizzati nello Staffordshire, che per trecento anni è stato il cuore produttivo della ceramica inglese. Grazie al controllo su ogni singolo elemento del design e della produzione, il brand Perrin & Rowe è diventato per architetti e professionisti dell'arredamento sinonimo di qualità e durata nel tempo.

Bob e Greg sono andati in pensione diversi anni fa, ma la loro tradizione e la loro passione sono vive più che mai alla Perrin & Rowe. Anche ora che siamo un brand di lusso con una reputazione su scala internazionale, i nostri principi di design e maestria inglese, ingegneria avanzata e manifattura tradizionale restano alla base del nostro successo.

THE PERRIN & ROWE PROMISE

All Perrin & Rowe products are designed and manufactured in Britain.

We are driven by engineering excellence. We use state of the art manufacturing technology to support our traditional methods and skills.

Our brassware is made from low lead brass of the highest quality available. The surface is plated to a thickness that exceeds industry standards, ensuring a deep, protective coating that is resistant to wear and pleasing to the eye.

We assemble our brassware by hand, and individually water-test each one.

Our handles and spouts include bearing rings and engineering 'O' seals to ensure maximum durability.

Perrin & Rowe brassware has a 'wobble free feel'.

Our ceramic disc valves are tested up to 500,000 cycles and supplied by the world's leading ceramic cartridge manufacturer. On test, valves are repeatedly turned on and off with pressurised water to the equivalent of 25 years' use in a domestic installation.

Perrin & Rowe specifically manufacture for different markets around the globe. No additional adapters or converters are required for installation.

Our aim is to offer the world's finest range of kitchen and bathroom products.

DAS PERRIN & ROWE VERSPRECHEN

Alle Produkte von Perrin & Rowe werden in Großbritannien entworfen und hergestellt.

Technologische Spitzenleistungen treiben uns voran. Wir nutzen modernste Produktionstechnologie, um unsere traditionellen Methoden und Fertigkeiten zu unterstützen.

Unsere Messingarmaturen bestehen aus bleiarmem Messing von höchster Qualität. Ihre Oberflächen sind stärker beschichtet, als es die Industrienormen verlangen. Die so entstehende Oberflächenbeschichtung bietet tiefgehenden Schutz und eine ansprechende Ästhetik.

Wir montieren unsere Messingarmaturen von Hand und testen den Wasserdurchlauf bei jeder einzelnen Armatur.

Unsere Griffe und Ausläufe sind mit Lagerringen und O-Dichtringen ausgestattet, um eine maximale Lebensdauer zu garantieren.

Bei Armaturen von Perrin & Rowe wackelt nichts.

Unsere keramischen Ventile beziehen wir vom weltweit führenden Hersteller von Keramikkartuschen. Sie durchlaufen bei uns bis zu 500.000 Testzyklen und werden dabei so lange mit Druckwasser beschickt und immer wieder geöffnet und geschlossen, wie es einer Nutzungsdauer von 25 Jahren in einer Hausinstallation entspricht.

Perrin & Rowe produziert spezifisch für verschiedene Märkte rund um den Erdball. Für die Installation werden keine Adapter benötigt.

Unser Ziel ist es, die feinsten Küchen- und Badezimmerprodukte der Welt anzubieten.

L'ENGAGEMENT DE PERRIN & ROWE

Tous les produits Perrin & Rowe sont conçus et fabriqués en Grande-Bretagne.

Nous sommes motivés par l'excellence en matière d'ingénierie. Nous utilisons une technologie de fabrication de pointe pour consolider nos méthodes et nos compétences traditionnelles.

Nos robinetteries sont fabriquées à partir de laiton à faible teneur en plomb de la plus haute qualité disponible. La surface est plaquée à une épaisseur qui excède les normes de l'industrie, en garantissant un revêtement de protection profond qui est résistant à l'usure et agréable à l'œil.

Nous assemblons nos produits à la main, et analysons l'étanchéité de chacun d'entre eux.

Nos poignées et nos becs sont équipés de bagues de friction et de joints toriques « O » afin de garantir une durabilité maximale.

Les robinetteries Perrin & Rowe sont robustes et ne vacillent pas.

Nos têtes céramiques sont testées à hauteur de 500 000 cycles et sont fournies par le premier fabricant mondial. Lors du test, les robinets sont ouverts et fermés à plusieurs reprises avec de l'eau sous pression correspondant à l'équivalent de 25 ans d'utilisation au sein d'une installation domestique.

Les produits Perrin & Rowe sont fabriqués spécifiquement pour différents marchés dans le monde entier. Aucun adaptateur ou convertisseur supplémentaire n'est requis pour l'installation.

Notre objectif est d'offrir la meilleure gamme de produits de cuisine et de salle de bains au monde.

LA PROMESA DE PERRIN & ROWE

Todos los productos de Perrin & Rowe se diseñan y fabrican en Gran Bretaña.

Nuestra motivación es la excelencia en ingeniería. Usamos tecnología de fabricación de vanguardia para respaldar nuestros métodos y conocimientos tradicionales.

Nuestras griferías se fabrican a partir de latón con bajo contenido en plomo de la mayor calidad actualmente disponible. La superficie tiene un chapado de un grosor que supera los estándares del sector, lo que garantiza una capa protectora profunda resistente al desgaste y agradable a la vista.

Montamos nuestros productos a mano y probamos cada uno de ellos, de forma individual, con agua.

Nuestras manecillas y caños incluyen anillos de rodamiento y juntas tóricas diseñadas para garantizar la máxima durabilidad.

Los artículos de latón de Perrin & Rowe son firmes y no se tambalean.

Nuestras monturas cerámicas se han probado durante 500.000 ciclos y proceden del mayor fabricante de cartuchos de cerámica del mundo. En las pruebas, las griferías se abren y cierran repetidamente con agua presurizada, lo que equivale a 25 años de uso en una instalación doméstica.

Perrin & Rowe fabrica específicamente para diferentes mercados de todo el mundo. No se necesitan adaptadores ni convertidores adicionales para la instalación.

Nuestro objetivo es ofrecer la mejor gama de productos de baño y cocina del mundo.

LA PROMESSA DI PERRIN & ROWE

Tutti i prodotti Perrin & Rowe vengono progettati e realizzati in Gran Bretagna.

Il nostro principio guida è l'eccellenza ingegneristica. Ci serviamo di tecnologie all'avanguardia per supportare i nostri metodi e le nostre abilità tradizionali.

Le nostre rubinetterie nascono da ottone a basso contenuto di piombo della più alta qualità disponibile. La superficie presenta uno spessore di placcatura che supera gli standard del settore e garantisce un rivestimento che protegge in profondità, resistente all'usura e dall'aspetto gradevole.

Assembliamo i nostri prodotti a mano ed eseguiamo i test idraulici per ogni singolo prodotto.

Le nostre maniglie e le bocche di erogazione comprendono anelli per cuscinetti e guarnizioni a "O" di altissimo livello per garantire una durata ottimale.

Tutti i prodotti Perrin & Rowe trasmettono una sensazione di estrema solidità

Le nostre valvole a disco ceramico vengono testate fino a 500.000 cicli e sono fornite dal principale produttore mondiale di cartucce in ceramica. Nel corso dei test, le valvole vengono ripetutamente attivate e disattivate con acqua pressurizzata per simulare un uso di 25 anni nel contesto di un impianto domestico.

Perrin & Rowe realizza prodotti specifici per diversi mercati in tutto il mondo. Per l'installazione non sono necessari adattatori o convertitori aggiuntivi.

Aspiriamo a offrire la gamma più raffinata al mondo di prodotti per la cucina e per il bagno.

PERRIN & ROWE®
MAYFAIR LONDON

All products are manufactured in the UK from the highest quality raw materials available.

Plating on Perrin & Rowe Products exceeds the industry standard by 10 microns: standard at 15 microns, and Perrin & Rowe at 25 microns. This additional plating will ensure a deep, protective coating that is resistant to wear and tear and is very pleasing to the eye.

Each product is assembled by hand and individually water tested to ensure peace of mind.

All products include bearing rings on valves for maximum durability. Bearing rings give Perrin & Rowe products a stable "wobble free feel". Engineering 'O' rings are also used. These 'O' rings are more durable than standard washers and less likely to cause problems due to drips and leaks. Ceramic disc valves are supplied by Flühs of Germany, the world's leading cartridge manufacturer.

Due to TCL Manufacturing Ltd continuing policy of product development, we reserve the right to modify or alter designs at our discretion.

All measurements shown in this document are in millimetres (mm).

TCL Manufacturing Ltd Terms and Conditions are available upon request.

Alle Produkte werden in Großbritannien aus Rohmaterialien der höchsten verfügbaren Qualität hergestellt. Die Beschichtung auf den Perrin & Rowe Produkten übertrifft die Industriestandards um 10 Mikrometer: Normal sind 15 Mikrometer und bei Perrin & Rowe sind es 25 Mikrometer. Diese zusätzliche Beschichtung gewährleistet eine tiefe Schutzschicht, die verschleißfest und sehr angenehm für das Auge ist. Jedes Produkt wird von Hand montiert und einzeln mit Wasser getestet, um die Sicherheit zu gewährleisten. Alle Produkte beinhalten Lagerringe an den Ventilen für maximale Haltbarkeit. Die Lagerringe verleihen den Perrin & Rowe Produkten ein stabiles "vibrationsfreis Gefühl" Technische O-ringe werden auch verwendet. Diese O-Ringe sind haltbarer als Standard Unterlegscheiben und neigen weniger dazu, Probleme aufgrund von Undichtigkeiten und Leckagen zu verursachen. Die keramischen Tellerventile werden von der Firma Flüh in Deuschland geliefert, welcher der weltweit führende Hersteller von Kartuschen ist.

Aufgrund der kontinuierlichen Politik der Produktentwicklung bei TCL Manufacturing Ltd behalten wir uns das Recht vor, das Design unserer Produkte nach unserem Ermessen zu modifizieren oder zu ändern.

Alle in diesem Dokument enthaltenen Abmessungen werden in Millimetern (mm) angezeigt.

Die Geschäftsbedingungen von TCL Manufacturing Ltd sind auf Anfrage verfügbar.

Tous nos produits sont fabriqués au Royaume-Uni avec les meilleurs matériaux bruts disponibles.

Les traitements de surface des produits Perrin & Rowe dépasse de 10 microns les standards du secteur : l'épaisseur de placage standard se situe à 15 microns, celle de Perrin & Rowe à 25 microns. Cette couche supplémentaire profonde assure une protection résistante à l'usure et est plaisante à voir.

Tous nos produits sont assemblés à la main et testés individuellement à l'eau pour plus de sûreté. Les bagues de roulement assurent aux produits Perrin & Rowe une « sensation d'absence de jeu » rassurante. Ils utilisent également des joints toriques, plus durables que les joints normaux, et moins susceptibles de causer des fuites ou des écoulements.

Nos têtes à disques céramiques sont fournies par l'entreprise allemande Flühs, le plus grand fabricant mondial de cartouches.

Ceramic disc valves are supplied by Flühs of Germany, the world's leading cartridge manufacturer.

En raison de la politique de développement continu des produits de TCL Manufacturing Ltd, nous nous réservons le droit de changer ou modifier nos produits à notre discrétion.

Toutes les mesures indiquées dans ce document sont exprimées en millimètres (mm)

Les Conditions générales de TCL Manufacturing Ltd sont disponibles sur demande.

Todos los productos están fabricados en el Reino Unido a partir de materias primas de la más alta calidad disponible.

Los acabados de superficie de los productos de Perrin & Rowe exceden el estándar del sector en 10 micrones. Mientras que el estándar es 15 micrones, los productos de Perrin & Rowe cuentan con un chapado de 25 micrones. Este chapado adicional garantiza un grueso revestimiento de protección, que es resistente al desgaste y proporciona un gran atractivo visual.

Cada producto está montado a mano y probado individualmente para garantizar su tranquilidad.

Todos los productos incluyen anillos de rodamientos en las válvulas para maximizar la durabilidad. Los anillos de rodamientos proporcionan a los productos de Perrin & Rowe una sensación estable sin movimientos. También se usan juntas tóricas de ingeniería. Estas juntas tóricas son más duraderas que las aranderas estándar y es menos probable que causen problemas por fugas.

Las monturas cerámicas son proporcionadas por Flühs en Alemania, el líder mundial de fabricación de cartuchos.

Debido a la continua política de desarrollo de productos de TCL Manufacturing Ltd, nos reservamos el derecho de modificar o alterar los diseños a nuestra discreción.

Todas las medidas mostradas en este documento son en milímetros (mm).

Podemos proporcionarle los términos y condiciones de TCL Manufacturing Ltd bajo solicitud.

Tutti gli articoli sono prodotti nel Regno Unito da materie prime della migliore qualità.

La placcatura dei prodotti Perrin & Rowe supera gli standard di mercato di ben 10 micron: lo standard è di 15 micron, mentre Perrin & Rowe raggiunge i 25 micron. Questa placcatura supplementare garantisce un rivestimento profondo e protettivo, resistente all'usura e gradevole alla vista.

Ogni prodotto è assemblato a mano e testato singolarmente per la resistenza all'acqua, garantendo così la tranquillità del cliente.

Ogni prodotto include guarnizioni a cuscinetti per le valvole, per garantirne la massima durata. Le guarnizioni a cuscinetto garantiscono ai prodotti Perrin & Rowe una resa "priva di oscillazioni". Utilizziamo anche gli O ring. Gli O ring sono più resistenti delle rondelle tradizionali ed è raro che riportino sgocciolamenti e perdite.

Le valvole a disco in ceramica sono fornite dall'azienda tedesca Flühs, leader mondiale nel settore delle cartucce.

A causa della politica di sviluppo continuo del prodotto applicata da TCL Manufacturing Ltd, ci riserviamo il diritto di apportare modifiche ai prodotti a nostra discrezione.

Termini e condizioni di TCL Manufacturing Ltd sono disponibili su richiesta.

Tutte le misure indicate nel presente documento sono espresse in millimetri (mm).

OTTONE LUCIDO (BR)
Una finitura calda con sfumature color rame.

SATIN BRASS (SB)
A matte finish with strong undertones of yellow ochre.

SEIDENMATT MESSING (SB)
Ein mattes Finish mit starken Untertönen von gelbem Ocker.

LAITON SATINÉ (SB)
Une finition mate, avec de fortes nuances d'ocre jaune.

LATÓN SATINADO (SB)
Un acabado mate con tonos intensos de amarillo ocre.

OTTONE SATINATO (SB)
Una finitura satinata con decise sfumature giallo ocra.

The three brass finishes are described as ‘living finishes’ which means they develop a unique patina as they react with their environment.

Die drei Messingverarbeitungen werden als „Lebende Oberflächen“ beschrieben, dieses bedeutet, dass sie eine einzigartige Patina entwickeln, wenn sie mit ihrer Umgebung reagieren.

Les trois finitions de laiton sont nommées « finitions vivantes » parce qu'elles développent une patine en réagissant à leur environnement.

Los tres acabados de latón se describen como "acabados vivos" ya que desarrollan una pátina a medida que reaccionan con el entorno.

Queste tre finiture in ottone sono definite “finiture vive” perché sviluppano una patina unica una volta a contatto con l’ambiente circostante.

LEVER HANDLES

The Traditional Collection of Perrin & Rowe kitchen mixers offer a variety of combinations of colours and finishes.

Through the innovative use of materials such as Brass, Porcelain, Corian and Avonite, Perrin & Rowe has made it possible to design a tap to suit your own individual requirements.

Prices shown relate to spares or replacement handles only. It is recommended that these handles are purchased in pairs to ensure a perfect colour match.

Important Note: The colours shown are not exact representations.

HEBELGRIFFE

Die traditionelle Kollektion der Perrin & Rowe Küchenmischer bietet eine Vielzahl von Farbkombinationen und Verarbeitungen an.

Durch die innovative Verwendung von Materialien, wie Messing, Porzellan, Corian und Avonit, hat es Perrin & Rowe ermöglicht, Armaturen zu konstruieren, die Ihren eigenen individuellen Anforderungen entsprechen.

Die angezeigten Preise beziehen sich nur auf Ersatzteile oder Austauschgriffe. Es wird empfohlen, dass diese Griffe paarweise bestellt werden, um eine perfekte Farbübereinstimmung zu gewährleisten.

Wichtiger Hinweis: Die angezeigten Farben sind keine genauen Darstellungen.

POIGNÉES À LEVIER

La collection traditionnelle de mélangeurs de cuisine Perrin & Rowe offre toute une palette de couleurs et de finitions.

Grâce à l'utilisation innovante du laiton, de la porcelaine, du Corian et de l'Avonite, Perrin & Rowe vous a permis de créer un robinet correspondant à vos spécifications précises.

Les prix indiqués concernent uniquement les pièces détaclées et les poignées de remplacement. Il est recommandé de les commander par paires pour s'assurer que leurs couleurs correspondent.

Remarque importante : Les couleurs montrées ne constituent pas des représentations exactes et ne sont pas contractuelles.

MANDOS

La colección tradicional de mezcladores de cocina de Perrin & Rowe le ofrece una gran variedad de colores y acabados.

Mediante el uso innovador de materiales como el bronce, la porcelana, el Corian y la Avonita, Perrin & Rowe hace que sea posible diseñar una grifería que encaje perfectamente con sus necesidades individuales.

Los precios mostrados son solamente para mandos de recambio. Se recomienda comprar los mandos en pares para garantizar que los colores encajan a la perfección.

Nota importante: los colores mostrados no son representaciones exactas.

MANIGLIE A LEVA

La Collezione Classica di miscelatori da cucina Perrin & Rowe offre un'ampia gamma di combinazioni di colori e finiture.

Con l'uso innovativo di materiali come ottone, porcellana, Corian e Avonite, Perrin & Rowe ha reso possibile progettare un rubinetto adatto a ogni singola esigenza.

I prezzi indicati si riferiscono esclusivamente a maniglie di ricambio. Si consiglia di acquistare queste maniglie in coppia, per essere sicuri che in colori corrispondano perfettamente.

Importante: i colori mostrati in foto non sono una rappresentazione esatta della realtà
